Lighting Up The World

I'm gonna light up the trees
Light up the birds
Light up the letters
Light up the words
Light up the desert
Light up the town
Light up the evening when the sun goes down.

We'll be lighting up all over the world
Lighting up every boy and every girl
Ain't gonna be no shadows when the flame starts to curl
We'll be lighting up the world

Light up the hills
Light up the wind
Illuminate the fire of your soul deep within
Light up the rings of Saturn
Light up the moon
Bring hope to the lonely lovers whose lives are in ruin

Lighting up all over the world
Lighting up every boy and every girl
Gonna rise like a phoenix and shine like a pearl
Lighting up the world

Light up the minutes
Light up the years
Light up the darkness of depression and fear
Light up the oil
Light up the gas
Light up the future and light up the past.

Come on
Lighting up all over the world
Lighting up every boy and every girl
Ain't gonna be no shadows when the flame starts to curl
We'll be lighting up the world

Light up the fields
Light up the streams
Light up the visions
Light up the dreams

Light up the spirit
Light up the ground
Light up the lost and light up the found.

Come on
Lighting up all over the world
Lighting up every boy and every girl
Gonna rise like a phoenix gonna shine like a pearl
Gonna be lighting up the world

Lighting up all over the world
Lighting up every boy and every girl
Ain't gonna be no shadows when the flame starts to curl
We'll be lighting up the world

Peter Himmelman & David Broza
"Lighting Up the World"

Written and performed by Peter Himmelman and David Broza, from the album Festival of Light
